## Report Guest lecture by Dr. Varoon Singh

**Place:** RNC Arts, JDB Commerce, NSC Science College

**Date:** 23/04/2022

**Time of event:** 12:00 noon

**Class** TYBSC and MSC

**No.of students present** :100

**Venue** : Seminar Hall RNC Arts, JDB Commerce, NSC Science College Nashikroad

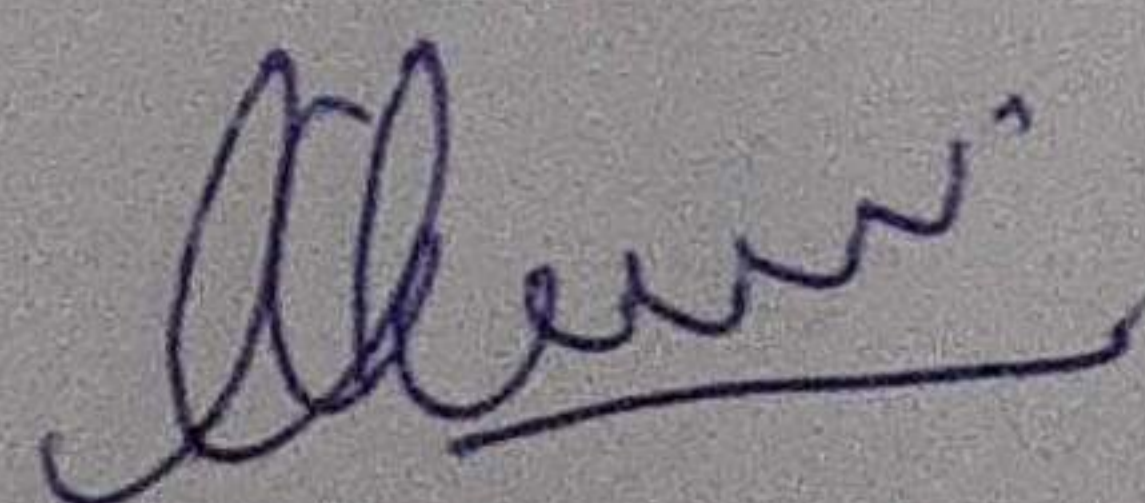

**Anchor:**Dr.Meenakshi Rathi

Principal Dr. Manjusha Kulkarni facilitated this lecture by Dr. Varun Singh an alumnus of this college for the career guidance of the chemistry department students. They chose the seminar hall as the venue. The event started with the great introduction of Dr. Varun, his past, and his achievements done by Laiba Azami

Soon after that Dr. Varun recited his academic journey, how he shifted to RYK College in order to pursue nuclear chemistry and then to many other colleges in order to receive his higher education, in this journey of DRDO was a huge part of it where he worked on a lot of projects including forming a material used in COVID testing during the pandemic. The students were introduced to a lot of other projects Dr. Varun worked on that included a variety of fields including warfare, the food industry, a whole new variety of magnets, neurotransmitters, etc. The students were excited to hear about the research and innovations.

After the introduction about all the different innovative projects, Dr. Varun went on to share the world of opportunities present all over the world and in the field of science and research. The different sets of exams you can give after and before doing your master's and the different research centers that you can be part of. He introduced us to a lot of valuable lessons about approaching your studies and being part of things around us. Among multiple valuable lessons we got from the whole session one of them was how research is not only about trending things or problems, sometimes you do things just for the sheer joy of learning and knowing more. The amount of excitement with which he talked, surely reflected the enthusiasm he contains in himself for science.

The event came towards an end with Aishwarya giving a wonderful vote of thanks to our chief guest. The event was fruitful for a lot of students who were trying to figure out what to do next, surely the amount of confusion was a lot slower and the amount of excitement for research significantly increased. Such sessions help calm down the students and introduce them to a whole lot of opportunities and we were all grateful to the Principal, Dr. Manjusha Kulkarni, and all the teaching staff members who were an equal part in organizing and making this event a success.
