Prof. Dr. Kishori T. Dhumal Mam and Asst. Prof. Dr. Akash Thakur.

Session-I

In this session Asst. Prof. Dr. Kishori T. Dhumal discussed about Intellectual property, needs and introduction and necessity of IPR, copyright, the similarities and distinctions between patents, Trademarks, and IPR, among other important topics, are covered in her talk.

IP is protected in law by, for example, patents, copyright and trademarks, which enable people to earn recognition or financial benefit from what they invent or create.

A patent is a right granted for an invention. It provides the owner with the right to decide how or whether - the invention can be used by others. Which is properly publish and register.

An industrial design constitutes the ornamental or aesthetic aspect of an article. A design may consist of three-dimensional features, such as the shape or surface of an article, or of two-dimensional features, such as patterns, lines or color. Geographical indications and appellations of origin are signs used on goods that have a specific geographical origin and possess qualities,

Asst.Prof. Kishori Dhumal addressing the students during seminar on IPR

a reputation or characteristics that are essentially attributable to that place of origin. Most commonly, a geographical indication includes the name of the place of origin of the goods.

Session-II

Asst. Prof. Dr. Akash Thakur in his talk discussed about Intellectual property, need and ways to safe guard it. He provided numerous everyday instances of trademarks copy right and patents. He urged the students to uncover and protect their creative ideas, through means of Patents, Trademarks or copyright Intellectual property (IP) refers to creations of the mind, such as inventions; literary and artistic works; designs; and symbols, names and images used in commerce.

IP is protected in law by, for example, patents, copyright and trademarks, which enable people to earn recognition or financial benefit from what they invent or create. By striking the right balance between the interests of innovators and the wider public interest, the IP system aims to foster an environment in which creativity and innovation can flourish.

A patent is an exclusive right granted for an invention. Generally speaking, a patent provides the patent owner with the right to decide how - or whether - the invention can be used by

others. In exchange for this right, the patent owner makes technical information about the invention publicly available in the published patent document.

Ast.Prof. Dr. Akash Thakur addressing the students during seminar on IPR

Copyright is a legal term used to describe the rights that creators have over their literary and artistic works. Works covered by copyright range from books, music, paintings, sculpture and films, to computer programs, databases, advertisements, maps and technical drawings.

The student participants during seminar on IPR

Such sessions help calm down the students and introduce them to a whole lot of opportunities and we were all grateful to the Principal, Dr. Manjusha Kulkarni, and all the teaching staff members who were an equal part in organizing and making this event a success.

MADRAS, INDIA

The annual activities of the Bytco College Science Association were inaugurated at the college recently by Professor Dr Sabyasachi Chatterjee of the Institute of Astrophysics Bengaluru and former national president of All India People's Science Network.

Speaking on the occasion, Dr Chatterjee stated that science is not just for science students but is required on a global scale to bind all of mankind together and bind all faculties of education too. A holistic approach is required for its development. The progress of science happens in stages. In order to combat epidemics, preventive measures are more crucial than treatment.

On this occasion, he also delivered a crucial message: managing your diet and taking the right medications are more important than using alternate therapies like yoga and meditation to recover

from chronic illnesses.

Throughout the interactive session, he also responded to various questions related to space science from the audience.

Principal in charge of the college, Professor Dr Manjusha Kulkarni, also spoke on the occasion. She welcomed the guests, while Professor Dinesh Bobde introduced the guests. Professor Sanjay Pawar proposed the vote of thanks, and Professor Dr Sudesh Ghoderkar, Coordinator of the Science Association, coordinated and delivered the introductory address.

National Youth Day-2022

As per the guideline issued by NSS coordinator Savitribai Phule Pune University Pune virtual (online through zoom platform) youth program has been held by our NSS unit D-50 on 22nd January 2022. We celebrated Swami Vivekananda birth anniversary. Following this occasion, due to Corona norms we held an online guest lecture. The guest speaker for the day was Tushar Sangale Sir (senior manager Deloitte United State). The anchor for the evening was NSS volunteer Aishwarya Kusundal, the program started with sir Ganesh Dilwale (NSS program officer) giving his ideology and thoughts on youth the challenges we face as a youth and a way to overcome youth problems. Later NSS volunteer Rohit introduced the guest of the day.

Tushar Sangale sir gave his speech on the occasion of youth Saptah. Sir started their speech with giving brief information about Swami Vivekananda being himself studied from Swami Vivekanand College enlighten that clarity is the at most important thing in life and it should be implemented in life and it should be implemented in life. "Arise, Awake and Stop Not" till the goal is achieved is the quote that particularly affected his life and we should take positivity ourselves from this quote later. He made us think whether our lives is wind-blown or self-propelled ask this question to ourselves create your own path if you know the path it is good chance that it is someone else part. Don't judge a book by its cover sir magnified this concept by telling us not to judge a person by his attire or language. Particular quote of his that crashed everyone's is not necessary to be brilliant we can be successful by implementing discipline and hard work. We often like to watch highlights of cricket match but it is not the the six and four that makes a match but the singles. This ideology definitely helped the listener that we need to come out of our comfort zone. At the end our principal Professor Dr. Manjusha Kulkarni madam gave a speech on her thought for youth. Her speech helped the NSS volunteers with the new energy the evening ended with the vote of thanks proposed by NSS volunteer Anushka Jadhav. Around 175 participants were benefitted by thing program.

'Fit India Movement'

Fit India movement aims to encourage people to inculcate physical activity and sports in their everyday lives. Prime Minister Narendra Modi launched the nation-wide "Fit India Movement" on the 29th August 2019 and appealed to every citizen to remain healthy and fit. The event was launched at the Indra Gandhi Stadium in New Delhi at 10.00 am.

After colourful presentation of India's indigenous marital art forms, dances and sports, PM Modi paid tribute to Dhyan Chand. He said, "On this day, a great sportsperson was born, Major Dhyan Chand. He amazed the world with his fitness, Stamina, and hockey stick." At the event, PM Modi said technology contributed to a sedentary lifestyle. "Fitness has always been an integral part of our culture. But, there is indifference towards fitness issues now. A few decades back, a normal person would walk 8-10km in a day, do cycling or run," Modi said. "But, with technology, physical activity has reduced. We walk less now and the same technology tells us that we are not walking enough," he added.

The launch was also attended by Sports Minister Karen Rijjis and National Sports Awards 2019 winners among others.

The prime minister congratulated the winners of the national sports awards and lauded India's sporting achievements. "Be it boxing, badminton, tennis or any sport, our athletes are giving new wings to our aspirations. Their medals are not just a result of their hard work but also a reflection of a new India's confidence," he said.

The event was organized under the guidance of Dr. Dhaneish Kalal, Principal of the college. Our college showed the entire program live in the seminar hall. On this occasion, Prof. Wasim Beg, Prof. Naresh Patil, Prof. Shashikant Khemnar and Sudhakar Borse successfully organized the event.

Kargil Vijay Diwas

On July 26, 2019, **Kargil Vijay Diwas** was celebrated with great enthusiasm at R.N.C.ART.S, J.D.B., Commerce, and N.S.C. Science College at Nashik Road. July 26 marks the victory of the Indian Army in **Kargil** in 1999, when they hoisted the Indian flag on the **Kargil** peaks. The war began on May 8 and ended on July 26 with the Indian Army's victory. Many brave soldiers from Nashik district participated in this war.

On this occasion, a special screening of the Bollywood movie "Uri: The Surgical Strike" was organized for the students of R.N.C.ART.S, J.D.B., Commerce, and N.S.C. Science College at Nashik Road. The movie, starring **Vicky Kaushal**, is based on the surgical strike carried out by the Indian Army in response to the terrorist attack on the Indian Army camp in Uri, Jammu and Kashmir.

The Principal of R.N.C.ART.S, J.D.B., Commerce, and N.S.C. Science College at Nashik Road, **Dr. Dhanesh Kalal**, and **Dr. Chandhari**, addressed the students and spoke about the importance of **Kargil Vijay Diwas** and the sacrifices made by the Indian Army. The event was attended by over 500 students, including the NCC cadets, non-teaching staff, and other employees of R.N.C.ART.S, J.D.B., Commerce, and N.S.C. Science College at Nashik Road.

Report Blood Donation (2018-19)

RNC Art's, JDB Commerce and NSC Science College organized the blood donation camp on Saturday, 25/09/2019 in college campus. For organizing this camp 60 NCC cadets participated. A single donation can save three lives. One blood donation provides different blood components that can help up to three different people. Blood cannot be manufactured. Despite medical and technological advances, blood cannot be made, so donations are the only way we can give blood to those who need it. Blood is the most precious gift that anyone can give to another person the gift of life. A decision to donate your blood can save a life, or even several if your blood is separated into its components — red cells, platelets and plasma — which can be used individually for patients with specific conditions. Other students and Staff of our college took part in this activity.
