Criterion 7 – Institutional Values and Best Practices

7.1.2. E: Disabled-friendly, barrier free environment

Creating a disabled-friendly, barrier-free environment in a college is essential for ensuring equal access to education and facilities for all students, faculty, staff, and visitors, regardless of their physical abilities. To support the success of students with disabilities, and create a more welcoming and equitable campus community. In our college, the number of disabled students is generally low. On average, there are one or two, or sometimes three students with disabilities each year. However, there are still some facilities available for those students.
